

Kylie Minogue, Good Life

When I was a little girl
I used to have a dream
Now that I'm older
I wake up to find it isn't as good as reality
Cause you are here with me
I was wishing on a star out in the universe
Now that I'm wiser I finally find that all I need is here on Earth
Cause you are here with me

Oh, I, I take a breath in and realise
That I'm, I'm living the good life

Thinking back to long ago, you were the mystery

All of the visions that I ever had could never live up to what I see
Cause you are here with me

Oh, I, I take a breath in and realise
That I'm, I'm living the good life
The good life Oooh, oooh, oooh...
I'm living the good life
The good life

The good, the good, the good, the good, the good life
The good, the good, the good, the good, the good life
The good, the good, the good, the good, the good life
The good, the good, the good, the good, the good life
