

# Kylie Minogue, If I Was Your Lover

You take a piece of me every time you leave  
and never realize that way I feel about you  
my tongue gets tied and my mouth gets dry  
I wanna tell you but I don't know how to

[Bridge:]

But through every night I dream  
hope and pray and believe  
that someday you and I will live in ecstasy  
the world for you and me

[Chorus:]

One love, one life  
everything would be alright if I was your lover  
one soul, one life'  
everything would be alright if I was your lover

Another day goes by and it blows my mind  
if I didn't know that you were meant for me  
under the moonlit night when the time is right  
you hold me in your arms from here to infinity

[Bridge]

[Chorus]

[Spoken:]

If I was your lover I'd hold you in my arms from dusk 'til  
dawn if I was your lover one night would last for eternity if  
we were together

But every night I dream  
hope and pray and believe, yeah  
so happy cause you're mine  
we'll live in ecstasy , the world for you and me

[Chorus 2x]
