

# Kylie Minogue, If Only

It's in my scent  
There's something that could pick up  
I turn around  
And the whole world is banned for me  
If I didn't tire all the places I wanna forget  
So we're down, we're down

February easy we're in  
Had an easy we're out  
If every step, up, had a lower step down  
When I feel it, you can feel it  
So we're down, we're down

Too much for my love to be left lonely  
If only, true love, spreading in the veins  
If only, too hard for my love to be left lonely  
If only, true love, spreading in the wings, if only  
Only, if only

Some days have never been said  
If little lines in the sand could come for me  
And the rain not easily to forget  
So we're down, we're down

It's in my scent  
There's something that could pick up  
I turn around  
And the whole world is banned for me  
When I feel it, you can feel it  
You can feel it

If I set you free  
And you actually came back to me

Too much for my love to be left lonely  
If only, true love, spreading in the veins  
If only, too hard for my love to be left lonely  
If only, true love, spreading in the wings, if only  
Only, if only
