

Kylie Minogue, Kiss Me Once

There's a look in your eyes
Something is up tonight
I can feel it

The air is thin
We're scent of it
And the dam won't break
One here falls, tension breaks the walls
Then relief comes

We are knew
Baby we made it through
Me and you
We've got some loving to do
Kiss me once
And you will watch me fall
Kiss me twice
And I will give you my all

Look, we're still up
Like twosome should do
Do you feel me
Come out for air
It's dark in here
Do you love me

Am I broke up
It's to my rocks
Tell the face babe
One here falls, tension breaks the walls
Then relief comes

We are knew
Baby we made it through
Me and you
We've got some loving to do
Kiss me once
And you will watch me fall
Kiss me twice
And I will give you my all
