

# Kylie Minogue, Love At First Sight (Kylie Version)

Ooooooooooh

Never thought i would fall for a stranger  
Never thought i'd be so naive  
Tried explaining the strangest behavior  
But this never happened to me

I just met the boy of all my dreams  
He smiled at me from afar  
Before I think about leaving  
He was holding me in his arms

Now I believe in love at first sight  
Now i believe it can be (i believe it)  
Yes I believe in love at first sight  
cos' I'm sure it just happened to me

Ooooooooooh

He smiled at me asked me to dance  
he told me he'd seen me before  
I could not resist his advances  
I knew I should see him some more

I wanted to tell him I loved him  
I wanted to say it right then  
My heart was so full of emotion  
And I just had to see him again

Now I believe in love at first sight  
Now i believe it can be (i believe it)  
Yes I believe in love at first sight  
cos' I'm sure it just happened to me

believe in love at first sight  
believe in love at first sight  
believe in love at first sight  
believe in love at first sight
