

# Kylie Minogue, Million Miles

Right in front of your eyes  
Why can't you see me  
Can't you read all the signs  
Why can't you feel it

Give me love, just a little bit harder  
Mine's beating to this drum  
It hasn't even started  
But I know that is love

'Cause I feel like I'm a million, million  
Feel like I'm a million miles away  
Feel like I'm a million, million  
Feel like I'm a million miles away  
When you touch my body  
I go wait base, so high for me to reach  
Feel like I'm a million, million  
Feel like I'm a million miles away

Feels like I'm going crazy  
Cause I'm always craving your touch  
My day dreams are amazing  
Oh, boy, you're never too much

Give me love, just a little bit harder  
Mine's beating to this drum  
It hasn't even started  
But I know that is love

'Cause I feel like I'm a million, million  
Feel like I'm a million miles away  
Feel like I'm a million, million  
Feel like I'm a million miles away  
When you touch my body  
I go wait base, so high for me to reach  
Feel like I'm a million, million  
Feel like I'm a million miles away
