

Kylie Minogue, No better

Ah ah Ah ah Ah ah
Wonder in you're wilderness
Close enough take a breath
Closer still touch you're skin
Open up (open up)
Let me in
Dont you know you're taking me down
You're making me high
My life's turned around
Now safe me tonight
No better love
Than when we make it
To get up and taste it
Intoxication this elation
Uh uh theres no better love
Follow up my fantasies
So nice ment to be
Nicer still what's to come
Take a ride (take a ride)
Come undone
Dont you know you're taking me down
You're making me high
My life's turned around
Now safe me tonight
No better love
Than when we make it
To get up and taste it
Intoxication this elation
Uhh theres no better love
No better love
Than when we make it
To get up and taste it
Intoxication this elation
Uh uh theres no better love
(Dont you know you're taking me down
Youre making me high
My life's turned around
Now safe me tonight)
Ah ah mm Ah ah mm Ah ah mm Ah ah mm Ah ah mm Ah ah mm
Dont you know you're no better love
Than when we make it
To get up and taste it
Intoxication this elation
Uhh theres no better love
No better love
Than when we make it
To get up and taste it
Intoxication this elation
Uh uh theres no better love
No better love, no better lov
