

Kylie Minogue, Sexy Love

You should get out of here
You might've to party for two
Then you say you leave me
Got time, it's dangerous
I want you like I know you want me
I'mma say it too much
Right now, feel what you wanting
You can't make me blush

It's been through that door
Like you know you find
Step on my floor
Like you know you find
You're on fire
But you play it cool
Every eye on you

So don't play me
Wanting me just too much
You're sexy
And watching me this sexy love
All I see
Everytime I look at you
It's you are free
I just wanna be with you
Give me that sexy love
You look so sexy, so sexy in my head
You look so sexy, so sexy in my bed
You look so sexy, so sexy in my head
You look so sexy, so sexy in my bed

We got places to go
There's so much I wanna see
Let's make out on the low
And vis-for-vis on this
I want you to feel like you're having the time of your life
I can't wait to start like you're waiting, accept my invite

It's been through that door
Like you know you find
Step on my floor
Like you know you find
You're on fire
But you play it cool
Every eye on you

So don't play me
Wanting me just too much
You're sexy
And watching me this sexy love
All I see
Everytime I look at you
It's you are free
I just wanna be with you
Give me that sexy love
You look so sexy, so sexy in my head
You look so sexy, so sexy in my bed
You look so sexy, so sexy in my head
You look so sexy, so sexy in my bed
