

Kylie Minogue, Skirt

Shake it, shake it
I can do this all night
All those things you like
That you hide as a kite
Got the wind, shake it
Let's get out of here come on
Where's your car, take me on
Up the stairs, Close the door

And then my skirt came down
Down, down, down
And then my skirt came down
Down, down, down

Down, down, down
And then my skirt came down

Let's get out of here come on /5x

Tonight be my super novel take for anyone
Tonight let me basket you a craze of desire
Tonight i'm yours
Tonight we're one

And then my skirt came down
Down, down, down
And then my skirt came down
Down, down, down

Down, down, down
And then my skirt came down

Like the way I shake it /5x
Like the, like the, like the

That's when my....
And then my skirt came down

Tonight be my super novel take for anyone
Tonight let me basket you a craze of desire
Tonight i'm yours
Tonight we're one
