

# Kylie Minogue, Take Me With You

I try, not to panic,  
I hold on to the pieces,  
It's hard to stop my heart from breaking.  
If I could stand to take the long road,  
If I could reach to where I've never been.  
There's a mirror facing me.

I don't want to be here... Take me with you

[Chorus:]  
Take me there, take me there,  
until I die, until I die.  
Take me with you,  
take me there, take me there,  
Until I die, Until I die  
take me with you.

I chose to be careful,  
hold on to the reason,  
it's hard to stop my head from spinning,  
If I could sleep until tomorrow,  
If I could see the things I've never seen,  
It's a matter of dreaming.

I don't want to be here... take me with you

[Chorus]

I don't wanna hurt inside,  
I feel like I'm losing time,  
take me with you

[Chorus]

With you
