

# Kylie Minogue, When The Cat's Away

It's got to be time that I put my foot down  
You push me and pull me with those games your playin'  
And you know what goes around comes around  
Cause I started hearing all the words they're saying

You're so conceited  
I won't be cheated (Just listen)  
One little push and you're gone

Everytime the cat's away  
All the boys come out to play  
Its bad behaviour  
But I like the flavour  
A little bird told me its true  
So I do it back to you  
Nice girls don't do it  
But you push me too it  
Ooohh ooooooh ha ha ha

I'm needing some liberation  
Set me free  
You tried to control me  
But I'm disobeying  
I'm tired of you giving me the third degree  
When I've got a lead on you to stop you strayin'

You're so conceited  
I won't be cheated (Just listen)  
One little push and you're gone

Everytime the cat's away  
All the boys come out to play  
Its bad behaviour

But I like the flavour  
A little bird told me its true  
So I do it back to you  
Nice girls don't do it  
But you pushed me to it  
Ooohh ooooooh ha ha ha
