

Kylie Minogue, Where Is The Feeling? (Remix)

Better than you
You make me feel happy
Happy to know you
Where is the feeling?
The feeling of security
When we're not together
Tell me everything's gonna be alright
Anytime you want me to (anytime)
I can make you happy (I can make you happy)
There ain't nothing (nothing) I wouldn't do
To make you happy
They tell me I'm crazy
Baby, since you've been gone
They don't understand
Together we're one
Where is the feeling
The feeling of security
When we're not together
Anytime you want me to
I can make you happy (I'll make you happy)
There ain't nothing (there ain't nothin) I wouldn't do
To make you happy (to make you happy)
Oh anytime
I can make you happy baby
It's gonna be alright
When we're not together
Tell me everything will be alright
Anytime you want me to
I can make you happy
There's nothing I won't do
To make you happy
Anytime, I can make you happy
Anytime, I can make you happy
