

Kylie Minogue, Word is ut

Ooh yeah
Now word is out
The word is out
Innocence
Word is out
Over town
Now the word is out
Word is out
Now the word is out
The word is out
U're clinging 2 a lie
Still U hope 2 try
And save your face, ooh
It's a no-win situation
There ain't gonna B a saving grace
Because you're sticking 2 a story
It really makes no sense
No judge or jury could ignore the evidence
Because the word is out
I can't go on believing in your innocence
Now the word is out (the word is out)
The word is out
You can't go on pretending
It's all over town
Now the word is out (the word is out)
Ain't but one redeeming feature
So U may as well accept your fate
(Accept your fate), ooh
U can't wriggle out of this, it's gone 2 far
It's much 2 late (it's much 2 late)
But it's funny my suspicions lead me 2 the lie
From the friend of a so-called friend
I heard about your double life
Ooh yeah
Because the word is out
Can't go on pretending
Innocence
The word is out
The word is out
Yeah
Over town
Now the word is out (the word is out)
It's all over town
