

# Lacey Sturm, Not Your Fight

Stand up  
You will face the raging storm around you  
Don't turn  
Just sing out your faith and let it ground you

I want you to remember what I told you  
Soak it in until you feel my ghost hold you  
And I will set you free from every enemy  
And you will sing about the way that I have loved you

Don't be afraid  
Let fears wash away tonight  
Just know that this is not your fight  
Take a deep breath  
Right here at the edge of night  
Just know that this is not your fight

Go now  
Darkness will move as you will walk on  
Rejoice  
You're gonna watch me throw this mountain

I want you to remember what I told you  
Soak it in until you feel my ghost hold you  
And I will set you free from every enemy  
And you will sing about the way that I have loved you

Don't be afraid  
Let fears wash away tonight  
Just know that this is not your fight  
Take a deep breath  
Right here at the edge of night  
Just know that this is not your fight

I'll be your defense  
The victory dance inside  
Believe I'm gonna win tonight  
My love's not afraid  
I'll teach you the way of light  
That overcomes every night

Don't be afraid  
Let fears wash away tonight  
Just know that this is not your fight  
Take a deep breath  
Right here at the edge of night  
Just know that this is not your fight

I'll be your defense  
The victory dance inside  
Believe I'm gonna win tonight  
My love's not afraid  
I'll teach you the way of light  
That overcomes every night
