Lacuna Coil, Virtual Environment

I saw you fade
Or was it a dream
But sooner had I tried to touch you
The love would disappear

Hard to go on
You'll never let me down again
How to go on
And never be the one to blame
Before

Floating into your world
To see what is inside
Consquentially doomed
My peace is out of sight

Can't stay away
Can't stay away from you x2

Hard to go on
You'll never let me down again
How to go on
And never be the one to blame
Before

Floating into your world
To see what is inside
Consquentially doomed
My peace is out of sight

Can't stay away
Can't stay away from you x2

(Background vocals)
No matter I miss you
Whenever you keep coming through
No matter I feel you
Whatever I can't stay away from you
