

# Lacuna Coil, Within Me

Something about you that makes me feel bad  
I wasn't there when a thin line destroyed your soul

I search every corner, there's nowhere to hide  
How I feel, ignorant sacrifice  
Some days, it's harder  
Let's face it, it's all about me  
Deeply into your own

Deep within me  
Life's crawling and wasting my days  
Another night gone  
And I know there will be another way  
I'm leading myself to be free  
In this eternal goodbye

Something about you will make me stronger  
Now I'm aware when a man falls rebound, my fault

I search every corner, there's nowhere to hide  
How I feel, ignorant sacrifice  
Some days, it's harder  
Let's face it, it's all about me  
Deeply into your own

Deep within me  
Life's crawling and wasting my days  
Another night gone  
And I know there will be another way  
I'm leading myself to be free  
In this eternal goodbye, goodbye

Here I wanna be  
No more lies  
Here I wanna be  
Here I wanna be  
No more lies  
Here I wanna be

Deep within me  
Life's crawling and wasting my days  
Another night gone  
And I know there will be another way  
I'm leading myself to be free  
In this eternal goodbye
