

Lady GaGa, Sine From Above (feat. Elton John)

When i was young, I prayed for lightening
My mother said it wuld come and find me
I found myslef whitout a prayer
I lost my love and no one cared
When i was young, I prayed for lightening

I looked with my face up to the sky
But i saw nothing there, no, no nothing there
I stared while my eyes filled up whit tears
But ther was nothing there, no, no nothing there

I heard one sine from above
I heard one sine from above
Then the signal split in tow
The sound created stars like me and you
Before there was love
There was silence
I heard one sine
and it healed my heart
heard one sine
