## Lady GaGa, Something Crazy

Wait, I think it's time Your fire's lit and so is mine Go turn out the light Don't be afraid, tonight's the night

And I won't, I won't try to change you But I will, I will if I want to Yeah, it always brings me down When you're not around I still need you

Oh, You do something for me baby I cannot control it, baby You do something for me Oh, You do something crazy to me I cannot control it, baby You do something for me

And I feel so down When you're not around

Boy, we're almost there I'll lay your clothes over my chair Pull the shades down low We're both ready so lose control

And I won't, I won't try to tame you But I will, I will if you want to Yeah it always brings me down When you're not around I still need you

Oh, You do something for me baby I cannot control it, baby You do something for me Oh, You do something crazy to me I cannot control it, baby You do something for me

And I feel so down When you're not around

And I won't, I won't try to tame you But I will, I will if you want to Yeah it always brings me down When you're not around I still need you

Oh, You do something for me baby I cannot control it lately You do something for me Oh, You do something for me baby I cannot control it lately You do something for me

Oh, You do something crazy to me I cannot control it, baby La la la la la la la la You always bring me down
