

Lady Sovereign, 9 To 5 Lady Sovereign Vs The C

I wake up late every morning
Manager's calling, I'm still yawning
Get up, wake up, hair and makeup
Waiting for you, don't be stalling
This performance is important
I don't think I can put my all in

Hold on I was drunk last night
Now it's all kicking in and I don't feel right
Gave my number to a breh who wasn't my type
Now my phones on silent; I'm being polite
Private caller's gettin no love from me
Just let me be

Chorus:
Oh my gosh, my days are getting longer
And there's no turning back; I'm working the 9 to 5
Just to keep my contract, did I say 9? I meant 1:30
I am no early birdy, I'm working the 9 to 5

La, La, La

So you gotta...do...sum...ite... for...channel...u
Channel who sorry who I'm altered for a snooze
Oh! Channel U da ones that made me huge!
Like Katie Price's boobs
Whoops, I'm being rude
Wheres my Red Bull and my sandwich, I need food
I can't handle this
I'm getting pissed like pampers throwing a tantrum
"Action";
Nah I'd actually rather catch my z's, and count sheep in my sleep
Lets not wake her up actually looks quite sweet

Chorus:
Oh my gosh, my days are getting longer
And there's no turning back; I'm working the 9 to 5
Just to keep my contract, did I say 9? I meant 1:30
I am no early birdy, I'm working the 9 to 5

I'm not sure what day just started
Since my working week departed
Ever since our single charted
This pursuit's been everlasting
I clocked in about a year ago
And I haven't clocked out from the studio
Videos and TV shows
Staring out the window on the road
Now there's sometimes we don't get paid
For these rampages on these stages
I know that I won't get jaded
I won't go back to my minimum wages

Chorus:
Oh my gosh, my days are getting longer
And there's no turning back; I'm working the 9 to 5
Just to keep my contract, did I say 9? I meant 1:30
I am no early birdy, I'm working the 9 to 5

Chorus:
Oh my gosh, my days are getting longer
And there's no turning back; I'm working the 9 to 5
Just to keep my contract, did I say 9? I meant 1:30
I am no early birdy, I'm working the 9 to 5
