

# Lady XO, Feel That

I learned my lesson second chances contributed to my habits  
For so long you benefitted and my dumbass didn't doubt it  
If you needed me I'd drive to you cause you worth all the mileage  
Say we need some time away I kinda like the way that sounded

Gotta bone to pick with you cause you be actin' like a dog  
I shoulda took my time with you because these feelings way too strong  
It's like every time I miss you say you too busy to talk  
I wish I listened to myself cause you was with her all along

Feel that  
Tell me baby do I make you feel that?  
I'm a drug and you addicted  
Relapse, relax, feel that  
Feel that  
Tell me baby do I make you feel that?  
I'm a drug and you addicted  
Relapse, relax, feel that  
Yeah

I thought you was my homie  
It ain't hard to show me  
Seen you from a distance  
You switched all up on me  
Don't go tellin' stories  
We got different sides  
If you walked in my shoes  
Promise that you would ride  
Maybe for the best  
We had to put the shit to rest  
You not gon' leave my heart in debt  
Pretend like we ain't never met  
Ain't no return on my invest  
I'm fucked up tryna forget  
All your wrongs do you regret?  
I know you know I was a catch

Let's keep it simple  
We both got our issues  
Don't think I could fix you  
That's not what I'm into  
The worst part about it you wasted my time  
If I said you was solid we both know I lied  
Cause sorry means nothing, don't apologize  
All the damage is done I still feel it inside  
Not ashamed of my love because really I tried  
Got me in my bag forreal you behind

Feel that  
Tell me baby do I make you feel that?  
I'm a drug and you addicted  
Relapse, relax, feel that  
Feel that  
Tell me baby do I make you feel that?  
I'm a drug and you addicted  
Relapse, relax, feel that  
Yeah
