

Laibach, We Are Millions And Millions Are One

Love takes me over
Like a rising rocket
Love takes me over
Like a shining diamond
Love takes me over
With golden badges on the chest

What I am you'll become

I saw the light
We're all so much alike

Come to me, do not fight

I lost control
Over the big blue sky

So what do you want?
You shine so bright
But it's dark in the heat of the night
So why do you want
To share your story
In the dark

We're rising higher
Come, don't look back now
Let's reach the stars
Before the sunrise
Love takes us over
Across the point of no return

We are millions
And millions are like one

Embrace the new day
Reflecting in your eyes
