

Laika, Starry Night

It is night
And life moves
At a new pace
The air is still
The earth sleeps
We move with the grace
Of the moon sweeping
Through the clouds

It is night
And life moves
At a new pace
The air is still
The earth sleeps
We move with the grace
Of the moon sweeping
Through the clouds

One by one the stars
Break through
One by one the stars
Break through

One by one the stars
Break through
One by one the stars
Break through

One by one the stars
Break through
One by one the stars
Break through
One by one the stars
