

Lana Del Rey, Freak

Flames so hot that they turn blue
Palms reflecting in your eyes
Like an endless summer
That's the way I feel for you
If time stood still, I'd take this moment
Make it last forever

Your halo's full of fire
I'm rising up, rising up
My hot love's full of fire
Love's full of fire
Love's

Baby, if you wanna leave
Come to California
Be a freak like me, too
Screw your anonymity
Loving me is all you need to feel
Like I do
We could slow dance to rap music
Kiss while we do it
Talk 'til we both turn blue
Baby, if you wanna leave
Come to California
Be a freak like me, too

Leather black and eyes of blue
Sun reflecting in your eyes, like an Easy Rider
Life makes sense when I'm with you
Looking back, my past
It all seems stranger than a stranger

So let's dance in slow motion
Tear it up, tear it up
Let's dance by the ocean

Baby, if you wanna leave
Come to California
Be a freak like me, too
Screw your anonymity
Loving me is all you need to feel
Like I do
We could slow dance to rap music
Kiss while we do it
Talk 'til we both turn blue
Baby, if you wanna leave
Come to California
Be a freak like me, too

You're cold as ice, baby
But when you're nice, baby
You're so amazing in every way
You're cold as ice, baby
I don't wanna fight, baby
It's like I told you
If you stay, I'll stay

Baby, if you wanna leave
Come to California
Be a freak like me, too
Screw your anonymity
Loving me is all you need to feel
Like I do
We could slow dance to rap music

Kiss while we do it
Talk 'til we both turn blue
Baby, if you wanna leave
Come to California
Be a freak like me, too
