

Lana Del Rey, Season Of The Witch (piosenka z

When i look out my window
many sights to see
and when I look in my window
so many different people to be
they're strange, so strange
it's very strange to me

you've got to pick up every stitch (gonna be)
you've got to pick up every stitch (gonna be, gonna be)
you've got to pick up every stitch (
no, must be the season of the witch
must be the season of the witch
must be the season of the witch
(gonna be)

when I look over my shoulder
(What happens then?)
What do you think I see?
some other cat looking over here
over his shoulder
and he's strange, so strange
he's very strange to me

you've got to pick up every stitch (gonna be)
you've got to pick up every stitch (gonna be, gonna be)
you've got to pick up every stitch (
no, must be the season of the witch
must be the season of the witch
must be the season of the witch

said it must be the season, must be the season, must be the season (Witch)
said it must be the season, must be the season, must be the season (Witch)
said it must be the season, must be the season, must be the season (Witch)
said it must be the season, must be the season, must be the season (Witch)
You've got to pick up every stitch
said it must be the season, must be the season, must be the season (Witch)
