

Lana Del Rey, White dress

Sun stare, don't care with my head in my hands
Thinking of a simpler time
Like Sun Ra, feel small
But i had it under control every time

When i was a waitress wearing a white dress
Look how i do this
Look how i got this
I was a waitress, working the night shift
You were my man
Felt like i got this
Down at the Men in Music Business Conference
Down in Orlando
I was only 19
Down at the Men in Music Business Conference
I only mention it cause it was such a scene
And i felt seen

Summer sizzling
Listening to jazz out on the lawn
Listening to White Stripes when they were white-hot
Listening to rock all day loby

When i was a waitress wearing a tight dress headlining the hear
I wasn't famous, just listening to King of Leon to the bet
Like look at how i got this
Look how i got this
Just singing in the street
Down at the Men in Music Business Conference
I felt free cause i was only 19
Such a scene

Summer, summer's almost gone
We were talking about life
We were sitting outside till dawn
But i would still go back
If i could do it all again, i'd fly
Because it made me feel
Made me feel like a god
Cause it made me feel
Made me feel like a god
Somehow it made me feel
Made me feel like a god

When i was a waitress wearing a white dress
Look how i do this
Look how i got this
I was a waitress, working the night shift
You were my man
Felt like i got this
Down at the Men in Music Business Conference
Down in Orlando
I was only 19
Down at the Men in Music Business Conference
I only mention it cause it was such a scene
And i felt seen

When i was a waitress wearing a tight dress
Like look at how i got this
Look how i got this
When i was a waitress wearing a tight dress
Like look at how i got this
Look how i got this

it made me feel
Made me feel like a god
It kinda made me feel
I was better off
Cause it made me feel
Made me feel like a god
It kinda made me feel
I was better off
