

# Lanberry, How Do You Like Me Now

Look in the mirror  
just pull the trigger  
that's what you want to say  
But I sing my heart out  
You'll never beat that  
It takes the pain away

I think I had enough  
Of playing it safe  
this time I'm gonna do whatever it takes  
So how do you like me  
How do you like me  
I think I had enough  
Of playing it safe  
this time I'm gonna do whatever it takes  
So how do you like me  
How do you like me

how do you like me now  
how do you like me now  
tell me how do you see me  
I just wish you could see me  
how do you like me now

life's getting' bigger  
just pull the trigger  
shoot me with all your words

I think I had enough  
Of playing it safe  
this time I'm gonna do whatever it takes  
So how do you like me  
How do you like me

how do you like me now

you wanna put labels on me  
you just think you can  
own me  
unleash me  
you wanna put labels on me  
you think you can control me  
unleash me
