

Landon Austin, Ready For Anything

We look out and see the world
It takes everything we have to face it
Without a sound we'll take a step
Inside our hearts are racing

If it takes forever
We'll get there together

I'm winding along this road
Not knowing where you will go
No matter what life brings
If it's you and me
We're ready for anything
Watch you
The clouds go by
Our turn
We'll learn to fly
No matter what life brings
If it's you and me
We're ready for anything

We're ready for anything /3x

So as we ride into the sun
Sometimes we know we're gonna fall down
Hold my hand and we'll get up
I know we're gonna make it somehow

If it takes forever
We'll get there together

I'm winding along this road
Not knowing where you will go
No matter what life brings
If it's you and me
We're ready for anything
Watch you
The clouds go by
Our turn
We'll learn to fly
No matter what life brings
If it's you and me
We're ready for anything

We're ready for anything /3x

Come on come on we can be
Come on come on I don't care
I'd go with you anywhere
/4x

We're ready for anything /3x
