LANY, If You See Her

just look at us you'd never bet against our love got that kind of thing that lasts

table for 2 she said for life, so I;m confused how'd she turn it off so fast

don't know what she left me for she won't talk to me anymore

so if you see her tell her I'd do anything I need her I know I'm not perfect but we were she says she doesn't love me don't believe her if you see her

maybe today my phone will ring, I'll see her name trying not to hold my breath

it's all a blur but I remember holding her last time that I was in her bed

woke up with her head on my chest this doesn't make any sense

so if you see her tell her I'd do anything I need her I know I'm not perfect but we were she says she doesn't love me don't believe her if you see her

does she reminder the night before goodbye she said forever and made me swear I'd never leave her she says doesn't love me, d don't believe her if you see her

so if you see her tell her I'd do anything I need her I know I'm not perfect but we were she says she doesn't love me don't believe her if you see her
