

# LANY, never mind, let's break up

we watch the waves crash from my living room  
but you got over that after a month or two  
sick of the beach so we flew to new york  
and we partied all night but you still say you're bored

we both know something's gotta change  
'cause i'm all give and baby you're all take

You pick another flightt  
Tryna find another thing  
Wrong with us  
I was down to let it slide  
Cause you get a little mean when you drink too much  
Girl can you name a time i didn't go  
And get you eveything you want  
No, through about living ypu onece more Chance

Never mind let's break up  
Never mind let's break up

Whne you're upset i end up on the couch  
And i feel like a stronger inside my woon house  
I stopped working late and i stopped getting igh  
Ans i stopped being me  
Cas ei though thet's wha you lie

You pick another flightt  
Tryna find another thing  
Wrong with us  
I was down to let it slide  
Cause you get a little mean when you drink too much  
Girl can you name a time i didn't go  
And get you eveything you want  
No, through about living ypu onece more Chance

Never mind let's break up  
Never mind let's break up  
Never mind let's break up  
Never mind let's break up
