

# Lara Fabian, I Am Who I Am

Feels like you've built a wall around me  
You've tried your best to ground me  
Let me explain that I don't play by any other rules  
I won't be nobody's fool - I won't lose this game  
There is no way  
I can love you with half of my heart  
It would tear me apart

Chorus:

I am who I am  
What else could I be  
And I'll stand where I stand  
I chose to be me  
When you look in my eyes  
You get what you see  
Understand if you can  
That I am who I am who I am

Think twice before you try to read me  
Before you try to lead me into your trap  
You've got no right to play with my emotion  
'Cause you should know that I'm much deeper  
than that  
There is no way  
I can love you with half of my heart  
It would tear me apart

Repeat chorus

There is no way  
I can love you with half of my heart  
It would tear me apart
