

# Lara Fabian, The Last Goodbye

We can run away together  
If that's what you want  
We can hide away forever  
If that's what you want  
So just close the door  
Let nobody else in our head  
Close the door  
We can lay right here  
In our bed

Chorus:  
'Cos anything else  
Is wasted time  
You're all that I wanted  
Out of my life  
Just let me grow old  
here by your side  
Until the end of time  
Till the last goodbye

Let's just live here in the moment  
Sharing something real  
Let's not spend these ours talking  
Just give me something I can feel  
Oh come  
Close to me  
Let no ray of light in between  
Close to me  
We don't know  
Where I end and you begin

Chorus

Let's shut the world out  
See a chance and let's take it  
Seize on the moment  
And baby let's make it out  
And we'll work it out somehow  
How to live in here and now
