

Last Blush, Purple Nights

Stay with me,
Stay where we are,
Don't let me fall apart,
Stay with me,
Don't say goodbye,
Only we can fly together

I'm losing myself,
And barely can breathe,
In empty air,
I finally found you
And I'm gonna wait,
'cause I'm falling in love,
I'm falling in love

One day I,
I'll see you right here,
I need you by my side,
I will wait,
Will wait for your sign,
Even thousand days

I'm losing myself,
And barely can breathe,
In empty air,
I finally found you
And I'm gonna wait,
'cause I'm falling in love,
I'm falling in love

Now I can see your eyes on me,
I want to feel you next to me,
I will never forget this time,
Your touch,
I will never forget this time,

I'm losing myself,
And barely can breathe,
In empty air,
I finally found you
And I'm gonna wait,
'cause I'm falling in love,
I'm falling in love
