

Lauren Jauregui, Inside

[Verse 1]

Every time I try to, try to
Find you, I seem to lose you
I wanna get a little more close to be mine
'Cause lately I've been trying to see you
A little clearer for the real you
Scared thoughts and twisted feelings
You left behind

[Pre-Chorus]

They keep haunting me
Clouding and drowning me
Please, sit carefully
When I open up this time

[Chorus]

It's what is on inside, inside, inside
Is gonna get you through it
It's what is on inside, inside, inside
Is gonna get you through it
Maybe I'll get it one day
It's what is on inside, inside, inside
Is gonna get you through it

[Verse 2]

There's a place, a light to go to
My own space away from the truth
My truth and only mine
Can girl own me?
There's been so many boys
Just bitter thoughts
But fuck your projections, I'm running through them
Nobody louder or closer to me than me now, than me now

[Pre-Chorus]

Haunting me
Clouding and drowning me
Please, sit carefully
When I open up this time

[Chorus]

It's what is on inside, inside, inside
Is gonna get you through it
It's what is on inside, inside, inside
Is gonna get you through it
Maybe I'll get it one day
It's what is on inside, inside, inside
Is gonna get you through it

[Outro]

Oh no, yeah
