

Lazy Town, I Like Learning

I like learning 1,2,3's
For quick calculations
I like learning A,B,C's
For reading education
Everyday we gather lots of new information
We love school
I like learning history
It tells were we came from
I like learning instruments
Like beating on a big drum
Everyday we learn about the earth and nature
We love school
Everytime we learn
Our wheels start to turn
Every fact we know
Helps our minds to grow
I like learning science stuff
Like what's in the ocean
Or learning what will happen
When we put a ball in motion
I like learning all about the stars and the planets
We like learning 1,2,3's
For quick calculations
We like learning A,B,C's
For reading education
I like when I'm learning something new
And so will you
Let's start learning something new today
