

Le Kid, Mercy Mercy

We are the L E the K I D
The only think your mama ever wanna see!

Just a little bit closer now
Just a little bit closer now
Just a little bit closer now
Just a little bit
J-Just a little bit

I you take a walk downtown in my shoes
You see things from my view
You know what to do
Oh, I set my mind out for a riot
But god I'm not a pilot
You don't have a clue

Oooh
And every time you think you got me
You gotta step by and be somebody
I gotta get I gotta get
I gotta get you to wind me up

You should be asking me for mercy mercy
You should be saying you will treat me, treat me right
And you'll do anything
If I'll do anything for you baby

You should be asking me for mercy mercy
You should be saying you will treat me, treat me right
And you'll do anythin'
If I'll do anythin'
If I'll do anythin'
for you (just a little bit closer now)
for you (just a little bit closer now)
for you (just a little bit closer now)
for you (just a little, j-just a little bit)

If you wanna be the last man standing
I can be demanding
You know what to do

Oooh
And every time you think I'm easy
Get down on your knees and ask for mercy
I gotta get, gotta get, I gotta get you to wind me up

You should be asking me for mercy mercy
You should be saying you will treat me, treat me right
And you'll do anything
If I'll do anything for you baby

You should be asking me for mercy mercy
You should be saying you will treat me, treat me right
And you'll do anythin'
If I'll do anythin'
If I'll do anythin'

We are the L E the K I D the only thing your mama ever wanna see
We are the L E the K I D
we are the *something something* uncle in your family

Nah, nah, nah, nah..

You should be asking me for mercy mercy

You should be saying you will treat me, treat me right
And you'll do anything
If I'll do anything for you baby

You should be asking me for mercy mercy
You should be saying you will treat me, treat me right
And you'll do anythin'
If I'll do anythin'
If I'll do anythin'
