

Leaves' Eyes, Across the Sea

We stand and fight
We sail tonight across the Sea
We seek for foreign lands
It's time to strike
We sail tonight across the Sea
We reach for ancient lands!

Come, come forth -
Come forth into winds strong
All men ride up, set our sails high!

An epic journey -
Our ships across the Sea
All crew stand up, fly the banners high!

To ancient lands, where legends dwell
Whelming breeze, the east winds swell

We stand and fight
We sail tonight across the Sea
We seek for foreign lands
It's time to strike
We sail tonight across the Sea
We reach for ancient lands!

Look, look forth -
The Isles of Cats ahead
Norsemen stand up, set our sails high!

For victory -
Our ships across the Sea
A glorious quest, fly the banners high!

To ancient lands, where legends dwell
Whelming breeze, the east winds swell

We stand and fight
We sail tonight across the Sea
We seek for foreign lands
It's time to strike
We sail tonight across the Sea
We reach for ancient lands!

Strength on strength, restless souls
Defy death, from coast to coast...
From coast to coast

We stand and fight
We sail tonight across the Sea
We seek for foreign lands
It's time to strike
We sail tonight across the Sea
We reach for ancient lands!

We stand and fight
We sail tonight across the Sea
We seek for foreign lands
It's time to strike
We sail tonight across the Sea
We reach for ancient lands!

We stand and fight
We sail tonight across the Sea
We seek for foreign lands

It's time to strike
We sail tonight across the Sea
We reach for ancient lands!

Strength on strength, restless souls
Defy death, from coast to coast...
From coast to coast
