

Lee Ann Womack, Thinkin' With My Heart Again

I only needed coffee
Aisle four is where he caught me off guard
Seemed like a lifetime
Between his goodbye
And by the way how have you been?
He talked about the weather
I thought of nights I held him so close
There I go
Thinkin with my heart again

His smile brought back the best times
Sweet memories of nights together
Stirrin up those old feelins
That got me thinkin bout forever

He said I'd best be goin
There's someone waitin for me outside
And I'm dyin
There he goes
And here I go
Thinkin with my heart again

His smile brought back the best times
Sweet memories of nights together
Stirrin up those old feelins
That got me thinkin bout forever with him

I only needed coffee
Aisle four is where he caught me
Thinkin with my heart again
