

Left Alone, New York City

New York city tonight
And you know I feel all right
Even thou I'm so far away from home

Up the avenues and down the streets
Hanging out at the lower east side
I got my friends got the casualties
And tonight well I feel all right
Well I like the music I like weather
I wanna live here some day
This song goes out to all the people
In the city I love

Down the avenues and up the streets
Hanging out at Niagara's tonight
Tehirs a mural of Joe Strummer on the wall
And tonight it made me feel all right

Well I like the music I like weather
I wanna live here some day
This song goes out to all the people and the city I love

New York city tonight and you know I feel all right
Even though I'm so far away from Wilmington my home
