

# Left Alone, New York City

New York city tonight  
And you know I feel all right  
Even thou I'm so far away from home

Up the avenues and down the streets  
Hanging out at the lower east side  
I got my friends got the casualties  
And tonight well I feel all right  
Well I like the music I like weather  
I wanna live here some day  
This song goes out to all the people  
In the city I love

Down the avenues and up the streets  
Hanging out at Niagara's tonight  
Tehirs a mural of Joe Strummer on the wall  
And tonight it made me feel all right

Well I like the music I like weather  
I wanna live here some day  
This song goes out to all the people and the city I love

New York city tonight and you know I feel all right  
Even though I'm so far away from Wilmington my home
