

# Legion Of The Damned, Solar Overlord

Solar overlord  
Warrior priest of the sun  
Pillar of the ancient order  
God and beast as one  
Solar overlord  
Spawn of the invincible sun  
Spartan discipline  
Imposed on the militant monks  
Solar overlord  
Warrior priest of the sun  
We are the sons of death  
Calm in the storm  
Solar overlord  
Spawn of the invincible sun  
Kali yuga reigns  
This cycle of regression  
Overman, titan height  
Promethean thrust  
Radiant anger, bursting hatred  
Burning lust  
Overlord, shade of Hades  
Bringer of death  
Bow down for the solar overlord  
Kneel down for the solar overlord  
A million sun storms in my mind  
Transcending mundane madness  
Ascending to heights unknown  
I will unleash the thunderbolts  
We are the thrusting horns  
The order of the bull  
The blood will be spilled  
To celebrate the black sun  
Raven of dispersion  
Brought to the streets  
Explosive charges and debris  
Chaos to be unleashed  
Overman, titan height  
Promethean thrust  
Radiant anger, bursting hatred  
Burning lust  
Solar overlord  
Warrior priest of the sun  
Pillar of the ancient order  
God and beast as one  
Raven of dispersion  
Brought to the streets  
Explosive charges and debris  
Chaos to be unleashed
