

Lenny Kravitz, Brother

Brother, got to sing your song
Brother, is taking us so long
For the elderly brother has raised us by his love
And to be equal is the freedom of his love
When will we realized that the skin is just a glove
To be thankful for the freedom of his love
Sister, stand up tall and proud
Sister, yell it strong and loud
I'm black and I'm proud
For no human can change the course of time
And no human creates the live in mind
So how can a man makes rules when yet he has no love
And how can a man a woman fill they are above
For an heavenly brother has raised us by his love
And to be equal is the freedom of his love
When will we realized that his skin is just a glove
And be thankful for the freedom of his love
Brother brother brother
Brother brother brother brother
Brother brother brother brother.
