

# Liam Payne, Slow

thought this is done, i will turn a blind eye  
don't tell me goodnight, cause it means goodbye  
know that we've broken  
no this was over months ago

got m pretending you ain't down at last  
it got me runnin', runnin' obvious  
you baby, way you got a rush

if you gonna let me down  
let me down  
tell me what I'd already  
already know  
I know that your minds of ready made up  
but give me one more night before we give u  
if you gonna let me down  
let me down  
just another minute  
I ain;t ready to go  
before we let the light in  
baby just hold me like you don't know  
that you're gonna let me down  
let me down slow

just leave in on set  
just one a second  
if you don't say it  
then it ain't true yet  
know that we've broken  
no this was over months ago

got m pretending you ain't down at last  
it got me runnin', runnin' obvious  
you baby, way you got a rush

if you gonna let me down  
let me down  
tell me what I'd already  
already know  
I know that your minds of ready made up  
but give me one more night before we give u  
if you gonna let me down  
let me down  
just another minute  
I ain;t ready to go  
before we let the light in  
baby just hold me like you don't know  
that you're gonna let me down  
let me down slow
