

Lil Nas X, Rodeo (Remix) (feat. Nas)

oh here we go
please let me know
off we go
don't leave me in the cold

if I took you everywhere
then well,
you wouldn't know
how to walk

if I spoke on your behalf
then well,
you wouldn't know
how to talk

if I gave you everything
and everything is
what I bought
I can take it all back
I never cared 'bout
what you thought

I don't mean to make you mad
I don't like when you're upset
I'ma call you later on
baby girl, don't you forget

I'ma take you
from this party
we might go and have some sex
or we do that later on
now we lit like cigarettes
