

# Lil Nas X, SUN GOES DOWN

I wanna run away  
Don't wanna lie  
I don't wanna a life  
Send me a gun  
And i'll see the sun

I'd rather run away  
Don't wanna lie  
I don't wanna a life  
Send me a gun  
And i'll see the sun

You need an instant ease  
From the life where you got planty  
Of every hurt and heartbreak  
You just take it all to the face

I know that you want to cry  
But it's much more to life than dying  
Over your past mistakes  
And people who threw dirt on your name

Since 10, i been feeling lonely  
Had friends but they was picking on me  
Always thinking wjy my lips so big  
Was i too dark?  
Can they sense my fears?

These gay thoughts would always hautnt me  
I prayed God would take it from me  
It's hard for you when you're fighting  
And nobody knows it wehn you're silent

I'd be by the phone  
Stanning Nicki morning into dawn  
Only place i felt like belonged  
Strangers make you feel so loved, you know?

And i am happy by the way  
That i made that jump, that leap of faith  
I am happy that it all worked out for me  
Immma make my fans so proud of me

I wanna run away  
Don't wanna lie  
I don't wanna a life  
Send me a gun  
And i'll see the sun

I'd rather run away  
Don't wanna lie  
I don't wanna a life  
Send me a gun  
And i'll see the sun

You need an instant ease  
From the life where you got planty  
Of every hurt and heartbreak  
You just take it all to the face

I know that you want to cry  
But it's much more to life than dying  
Over your past mistakes  
And people who threw dirt on your name
