

Lil Peep & XXXTENTACION, Falling Down (Travis Barker Remix)

come let's watch the rain as it's falling dawn
sunlight on your skin when I'm not around
shit don't feel the same when you're out of town
come let's watch the rain as it's falling down

come let's watch the rain as it's falling dawn
sunlight on your skin when I'm not around
shit don't feel the same when you're out of town
come let's watch the rain as it's falling down

rain keeps falling, tears keep falling
rain keeps falling, tears keep falling
darling, your love is like walking a bed of nails
and I just can't keep on fine

come let's watch the rain as it's falling dawn
sunlight on your skin when I'm not around
shit don't feel the same when you're out of town
come let's watch the rain as it's falling down

darling, your love is like walking a bed of nails
and I just can't keep on fine

come let's watch the rain as it's falling dawn
sunlight on your skin when I'm not around
shit don't feel the same when you're out of town
come let's watch the rain as it's falling down
