

# Lili Haydn, Daddy

Written by Lili Haydn & Jeffrey Connor

Trying to save the world while your daddy is dying  
with your safety net  
Everything's changed, now my songs make you cry and  
I feel you, Daddy I feel you, Daddy  
Fed by your father, your days were your own  
you're on your own now  
Head in the starts, now I'm fully grown, but  
I feel you, Daddy I feel you, Daddy
