

# Lindsey Stirling, Christmas C'mon (feat. Lindsey S

Counting the days  
wait all year  
sit back and celebrate  
when Christmas time is near

once, too soon  
I bought your gift in May  
can't believe you're here  
on my favorite holiday

there's been times before  
you wish for si much more  
when I was down and  
filled with doubt  
I had you  
and we made it through the year  
it's so good to be here

so we put it in a song  
dance the way we want  
turn the fire on  
baby, we can happen up together  
give to one another  
snuggle through the weather  
baby, Christmas c'mon  
baby, Christmas c'mon

put the star on the tree  
let the record spine while  
dancing next to me  
keep me warm from the snow  
under the mistletoe  
we'll watch the fire glow

there's been times before  
you wish for so much more  
when I was down and  
filled with doubt  
I had you

and we made it through the year  
it's so good to be here

so we put it in a song  
dance the way we want  
turn the fire on  
baby, we can happen up together  
give to one another  
snuggle through the weather  
baby, Christmas c'mon  
baby, Christmas c'mon
