

LION BABE, Jungle Lady

Honey I'm rare and you know it,
but I see you're special too!
Been along for a minute,
And I could get used to you

Tell me how you want it baby,
You know you need a Jungle Lady
Make me go wild and crazy,
So let's move into the dark
Tell me how you want it baby
You know you need a Jungle Lady
You know you should stay
'Cause I'm never gonna take away my love

Feeling hot but you already know,
I can't hide, I wanna show you,
Don't be shy, let's go and fall in love
And hold each other close, watch the stars above
Believe me, baby

Tell me how you want it baby,
You know you need a Jungle Lady
Make me go wild & crazy,
So let's move into the dark
Tell me how you want it baby
You know you need a Jungle Lady
Jungle Lady, Jungle Lady

Don't be shy, let's go and fall in love
And running through the dark and touch the Moon above
Believe me, baby
I want you! and I'd sink for you!
Honey I'm rare and you know it,
But I see you're special too!
Been alone for a minute,
Been alone for a minute,
You know you need a Jungle Lady
