Lipali, FASADY - Sunrise

Running out of time Although I've taken it slow Thinking about all that has come and gone

Shaking off blame Someone I hurt or struck Dream I could fly Fly never to come back

You gotta run away I gotta run away Making your own new way You gotta run

Falling apart
Guess I messed up with all
Willing to fly
Get rid of truths I'm told

They say I'm sick Don't see what's on below What's there to live I'll settle this one alone

You gotta run away I gotta run away Making your own new day You gotta run

Into sunrise In the sunrise
