

# Liquid Nation, Breathe life

Sail away with me on a new journey.  
To release the pressure.  
Want you close to me running wild and free.  
We live and breath it.  
Feels like I'm floating on water, on water.  
Hold me I'm holding on you, so don't let go.  
When I'm with you I'm so free inside.  
You've colored my world make me realize.  
When I'm with you I'm so free inside.  
You've colored my world make me realize.  
Hey, you breath life into me.  
You breath life into me.  
Feelings that we show I'd know where to go.  
Now I'm feeling better.  
I want you to know how you've helped me grow.  
You're all i needed.  
Feels like I'm floating on water, on water.  
Hold me I'm holding on you.  
Don't let go....  
When I'm with you I'm so free inside.  
You've colored my world make me realize.  
When I'm with you I'm so free inside.  
You've colored my world make me realize.  
You breath like into me.  
You breath like into me.
